

2020 vision is in full swing!

Last December, ICCM launched our **2020 Vision campaign**, believing God for a major step forward in our ability to impact thousands of children's lives. Our faithful sponsors and donors have gotten us off to a strong start. Thank you! We thought you'd like a brief update as 2018 draws to a close. **2020 Vision is a three-year focus to strategically invest in three key areas:**

Developing
our
global team

Leveraging
our
technology

Completing
our capital
projects

2020 Vision Campaign First Year Revenue and Expenses

Will you help us finish strong for our first year of the 2020 Vision? A generous year-end gift will keep the 2020 Vision on track and position us to face the New Year's opportunities and challenges. These investments are bearing fruit all over the world. Children who had no hope of an education are thriving and growing. Vulnerable children are protected. Hungry little ones are being nourished. Thousands of them experience the joy of learning, hope for living and the love of Jesus. Thank you for caring! Thank you for investing in children through ICCM. God bless you!

Total First Year Expenses

\$283,675

Year-end Giving Needed to Wrap Up 2018 in the black

\$52,898

“ I go back to my country with greater vision, strength and motivation to invest in God’s Kingdom via children and their families. I wouldn’t have missed this for anything! All praise to the Lord for the valuable opportunity to come together as one team in unity and purpose for the sake of the children.”

01

Developing our global team

In 2018, three groups of leaders gathered for vision casting, team building, learning and strategic planning. Southeast Asian leaders met in the Philippines, seven Regional Coordinators from around the globe met in the U.S., and Latin American leaders met in Colombia. When our leaders experience the power of being on a unified team, they are energized for the sacrificial work of administering the program and blessing the children. Equipped and motivated leaders end up benefiting the children in much greater ways.

Leveraging
our technology

02

Thanks to your 2020 Vision gifts, we've finally upgraded from our 19-year-old old database and website to a much better software and website, connected to each other.

You can create an account, view your child's photo, birthdate and other data and write a letter to your child. You can make an online contribution and check to see your prior giving. You can also browse our new website with its many informative pages, one for each country. If you have friends or family members who don't yet sponsor with ICCM, you can send them to the beautiful new site to find a child who desperately needs their support.

A new website isn't much use without someone constantly updating it with new stories, photos, videos and other enriching data. **So, your 2020 Vision giving is supporting our new web content strategist, Adrienne Crutchfield.** Adrienne has already brightened our presence on Facebook and other social media and is gathering new stories and photos from around the world to keep you up to date on our website.

**Adrienne
Crutchfield**

Or, mail a check in the enclosed envelope - please write 2020 vision on the memo line.

03

Completing our capital projects

With your help, this year we've seen major progress on some large capital projects:

Buconyori Boys Boarding School in Kenya, now in its second year of operation, has added classrooms and dorms for its growing population.

Davao City, the Philippines, Door of Hope project had experienced a tragic fire in which a beloved young woman was killed. A memorial gift accomplished the first phase; 2020 Vision funds are being used to build a second story and make the space useable for the wonderful Holistic Child Development program at Door of Hope.

In Paraguay, an adjacent property to our Juan Wesley School became available to expand our preschool and outdoor play space. We were able to seize the opportunity to purchase and renovate this strategic property.

Alem Tena, Ethiopia, now has a functional high school for the first time ever. The bright young learners are excited!
